9. Do you have any tips for the next course?

Tips for organization:

- The organization was very good but there should be a person to take care of the technical issues
- Should verify and test the computers, projector , cameras etc. before the course starts
- More time for working in groups
- The theoretical part should be presented in the first two days, and the practical things in the last day.

Tips for content:

- More written information to be given to participants to read.
- More games, filming and micro and macro analysis.

Tips for participants (who should participate and what should be the attitude of the professionals)

- There should be workshops on this subject to promote the method in all fields related to children
- More participative;
- Multidisciplinary teams (from hospital and school);

Tips for trainers:

- More time for the intervention of the participants ,
- More cases from different working fields.
